

VortiBlend vs. PolyBlend

	VortiBlend	Polyblend PB
Automatically Adjusts Polymer Rate Based On Dilution Water Flow To Maintain Selectable Polymer Concentration	◆	
Alphanumeric LED Operating System Display Shows Real-Time Concentration And Polymer Feed Rate	◆	
4 Modes of Operation	◆	
3 Stage Mixing	◆	
Automatic Selectable System Flushing	◆	
Neat Polymer Calibration	◆	
Low Dilution Water Flow Alarm	◆	
Remote Concentration Adjustment	◆	
Unreliable Pressure Differential Switch		◆
Belts, Shafts and Motors		◆
Hydro-Kinetic Motor-Less Mixing	◆	
Cramped, Hard To Work On Configuration		◆
Open Architecture For Easy Maintenance	◆	
Mix Chamber Flush Port	◆	◆
Neat Polymer Priming Port	◆	◆
Push Button Polymer Priming	◆	
Digital Annotated Alarm Indicator	◆	
Post Dilution Option	◆	◆
