Walchem Metering Pump Model Code

Series

Walchem E-Class Metering Pumps offer superior dosing capability. Superb valve performance and advanced solenoid engineering combine to make a highly precise pump. Its high speed of operation and long service life fit it for applications requiring a pump three times its physical size. Super quiet and compact, E-Class metering pumps prime in seconds and hold prime reliably. LKN Series metering pumps are rugged mechanically actuated diaphragm pumps retaining the advanced design features of the solenoid pumps yet offering high flow rates and output pressures.

Capacity

See Table of Contents for specific capacity information.

Control Code (not applicable for LK pumps)

- Y** On/Off with 0-360 digital speed control, external stop/start, programmable 4-20mA input and digital pulse input with pulse multiplier/divider control.
- F** EW Series only – On/Off with external start/stop, digital pulse control, stop and pre-stop inputs.
- R** On/Off with external start/stop and digital pulse control.
- E** EHE Series only – On/Off with 0-360 digital speed control, external stop/start, programmable 4-20mA input and digital pulse input with pulse multiplier/divider control.
- D** EZ Series only – On/Off with 0-360 digital speed control, fixed stroke length.
- T** EZB Series only – daily, 7 day or 14 day programmable timer.

Voltage Code (for LK, use appropriate letter code for motor/control option – page 16)

- 1** 115VAC, 50/60 Hz
- 2** 230VAC, 50/60 Hz

Water Treatment / Conditioning

This information is offered as a guide to create a basis of recommendation. It is impossible to take into consideration the unlimited variations in physical properties that can affect a material's chemical resistance. Materials should be tested under actual service conditions to determine suitability for a particular application. Note: Most standard pumps are supplied with LLDPE tubing that is compatible with many chemicals, but not all. Ensure chemical compatibility with the tubing before use. Please visit www.walchem.com or consult factory for suitability ratings on any materials that do not appear in this bulletin.

EWB Series

Notes for EWB Series:

1. All pumps include a manual air vent valve with the exception of FC & SH liquid ends.
2. All pumps include one foot valve, one injection valve and a ceramic weight with the exception of SH liquid ends.
3. All pumps include 20ft. of polyethylene tubing with the exception of SH liquid ends.
4. Add "M" and \$38.00 to the end of sizes 11, 16, and 21 pumps with 3/8" tubing and PC, PE, VC, VE, and VF liquid ends to include multi-function valve.
5. For 230V pumps, change the voltage code to '2'. See page 1 for further ordering information.
6. Add "-H" and \$119.00 to the end of -VCA models for the HC276 version (for hydrogen peroxide).

EKB Series

Notes for EKB Series:

1. All pumps include a manual air vent valve with the exception of FC & SH liquid ends.
2. All pumps include one foot valve, one injection valve and a ceramic weight with the exception of SH liquid ends.
3. All pumps include 20ft. of polyethylene tubing with the exception of SH liquid ends.
4. Add "M" and \$38.00 to the end of sizes 11, 16, and 21 pumps with 3/8" tubing and PC, PE, VC, VE, and VF liquid ends to include multi-function valve.
5. For 230V pumps, change the voltage code to '2'. See page 1 for further ordering information.
6. Add "-H" and \$119.00 to the end of -VCA models for the HC276 version (for hydrogen peroxide).

EZB Series

Notes for EZ Series:

1. All pumps include a manual air vent valve with the exception of FC liquid ends.
2. All pumps include one foot valve, one injection valve and a ceramic weight.
3. All pumps include 20ft. of polyethylene tubing.
5. Add "M" and \$38.00 to the end of sizes 11, 16, and 21 pumps with 3/8" tubing and PC, PE, VC, VE liquid ends to include multi-function valve.
6. For 230V pumps, change the voltage code to '2'. See page 1 for further ordering information.
7. Add "-H" and \$119.00 to the end of -VCA models for the HC276 version (for hydrogen peroxide).

EZBT Series

EZBT pumps include all of the features of the EZ pumps plus a programmable timer. Select the daily mode with 8 events per day, or the 7-day and 14-day modes with 1 event per day.

Notes for EZBT Series:

1. All pumps include a manual air vent valve with the exception of FC liquid ends.
2. All pumps include one foot valve, one injection valve and a ceramic weight.
3. All pumps include 20ft. of polyethylene tubing.
4. Add "M" and \$38.00 to the end of sizes 11, 16, and 21 pumps with 3/8" tubing and PC, PE, VC, VE liquid ends to include multi-function valve.
5. Timer pumps available only in 115V.
6. Add "-H" and \$119.00 to the end of -VCA models for the HC276 version (for hydrogen peroxide).

LK Series

Notes for LK Series:

1. Pumps do not include foot valve or injection valve.
2. Motor options are listed at bottom of page.
3. Pumps must be installed with P/R valves. See Accessories for part numbers and prices.
4. Pump mounting base is available. See Accessories for part number and price.
